

DEVELOPER RELATIONS & PLATFORM OPERATIONS ASSOCIATE

(Incubator AIC - GBU / Community & Operations Intern)

ABOUT OPEN IDEA

Open Idea is an AI-powered innovation platform that turns ideas into real apps and prototypes—no coding required.

The Problem: You have an idea, but execution is broken. Knowledge is scattered across 30,000+ journals and 420 million+ code repositories. Finding relevant research is impossible. Hiring developers is expensive. Building from scratch wastes time and money. Result? 90% of Indian startups fail within 3 years, with ₹2,000 Crore wasted annually.

How Open Idea Works: Start with your idea. Our platform offers three integrated components to turn it into reality:

- 1. Research:** Access millions of research papers, datasets, and open-source code in one unified platform. Our AI helps you discover existing solutions instead of starting from zero.
- 2. Build:** Use our AI-powered no-code workspace to remix proven components and create production-ready prototypes. No coding skills required. No expensive developers needed.
- 3. Collaborate:** Connect with a global community of experts, researchers, and innovators who can help refine and accelerate your project.

The Result: What traditionally takes months now takes minutes. From idea to working prototype—fast.

From Idea to App: Search your idea → AI finds relevant research, code, and datasets → Remix components in our no-code workspace → Collaborate with experts → Launch your prototype. That's innovation, democratized.

ABOUT THE ROLE

This is a critical position ensuring Open Idea's platform is accessible, user-friendly, and community-driven. You'll be the bridge between users and the product—helping developers, researchers, and innovators successfully onboard, build their first projects, and thrive on the platform. We're looking for a technically-minded communicator who can translate complex platform features into clear documentation, support users with empathy, and gather insights that drive product improvement.

KEY RESPONSIBILITIES

- **User Onboarding & Success (Q1 2026):** Design and execute onboarding flows to ensure 80%+ of new users successfully build their first prototype within 24 hours of signup.
- **Documentation & Knowledge Base:** Create comprehensive guides, video tutorials, FAQs, troubleshooting docs, and sample projects that reduce support tickets and empower self-service.
- **Platform Support & Community Management:** Provide first-line technical support via Discord, email, and in-platform chat. Respond to user queries within 6 hours, resolve issues within 24 hours.
- **Developer Advocacy:** Represent user needs internally—gather feedback, identify pain points, and work with the product team to prioritize fixes and feature requests.
- **Sample Projects & Templates:** Build and publish 1+ high-quality sample project or template per week (e.g., "Build a Landing Page in 10 Minutes," "Create an AI Chatbot Without Code").
- **Community Engagement:** Foster a thriving user community through webinars, Q&A sessions, showcase events, and user-generated content campaigns.
- **Analytics & Reporting:** Track onboarding metrics, user satisfaction scores, support ticket trends, and feature adoption rates to inform continuous improvement.

EXPECTED DELIVERABLES

- **Onboarding System:** Complete documentation suite including: Getting Started Guide, video walkthroughs, interactive tutorials, and first-project templates.
- **Knowledge Base:** 30+ articles covering platform features, common issues, best practices, and advanced use cases.
- **Sample Project Library:** 12+ production-ready templates across use cases (web apps, mobile prototypes, AI tools, data dashboards).
- **Support Excellence:** Maintain ≤ 24 -hour average resolution time with $\geq 8/10$ user satisfaction score.
- **Feedback Loop:** Weekly reports summarizing user pain points, feature requests, bug reports, and community sentiment with actionable recommendations.
- **Community Growth:** Build active Discord/Slack community to 300+ engaged members by Q2 2026.

KPIS / EVALUATION CRITERIA

- **First-Project Success Rate:** $\geq 80\%$ of new users successfully build and deploy a prototype
- **Time to First Prototype:** $\geq 70\%$ of users create their first project within 24 hours of signup
- **Support Response Time:** ≤ 6 hours average first response time
- **Support Resolution Time:** ≤ 24 hours average issue resolution time
- **Content Output:** Minimum 1 high-quality guide, tutorial, or sample project per week
- **User Satisfaction Score:** $\geq 8/10$ on post-support surveys

- **Documentation Coverage:** $\geq 90\%$ of platform features documented with examples

ELIGIBILITY & IDEAL CANDIDATE PROFILE

- **Educational Background:** Pursuing or completed degree in Computer Science, Information Technology, Engineering, Technical Writing, or related fields—or demonstrated technical aptitude and willingness to learn.
- **Technical Skills:** Basic understanding of web development, APIs, no-code tools, or software platforms. Ability to test features, identify bugs, and understand technical workflows.
- **Communication Skills:** Exceptional written and verbal communication in English; ability to explain technical concepts clearly to non-technical users.
- **Documentation Skills:** Experience creating guides, tutorials, or technical documentation. Familiarity with tools like Notion, GitBook, Markdown, or screen recording software.
- **Problem-Solving Mindset:** Patient, empathetic, and resourceful when helping users troubleshoot issues. Enjoys figuring out "why something isn't working."
- **Community Passion:** Genuine interest in developer communities, open-source culture, and helping others succeed.
- **Tool Proficiency (Preferred):** Experience with Discord/Slack (community management), Intercom/Zendesk (support), Loom/OBS (video tutorials), GitHub (documentation).
- **Self-Starter Attitude:** Proactive in identifying gaps, creating content, and improving user experience without constant direction.
- **Bonus Points:** Active contributor to open-source projects, personal technical blog/YouTube channel, or experience in developer advocacy roles.

WHY JOIN OPEN IDEA?

- **Be a Category Creator:** Help build India's first AI-powered unified innovation platform from the ground up—be part of a high-growth startup poised to redefine how innovation happens.
- **Own Your Impact:** Direct influence on user experience, platform usability, and community culture during our critical beta and launch phases.
- **Learn & Grow:** Exposure to startup operations, product development cycles, AI/ML applications, developer relations best practices, and technical documentation.
- **Work with a Mission:** Democratize innovation and make global knowledge accessible to everyone—from students in classrooms to researchers in labs.
- **Flexible & Collaborative:** Join a lean, high-energy team where your ideas matter and execution speed is celebrated.
