

MARKETING & GROWTH ASSOCIATE - INNOVATION PLATFORM

(Incubator AIC - GBU / Growth & Strategy Intern)

ABOUT OPEN IDEA

Open Idea is an AI-powered innovation platform that turns ideas into real apps and prototypes—no coding required.

The Problem: You have an idea, but execution is broken. Knowledge is scattered across 30,000+ journals and 420 million+ code repositories. Finding relevant research is impossible. Hiring developers is expensive. Building from scratch wastes time and money. Result? 90% of Indian startups fail within 3 years, with ₹2,000 Crore wasted annually.

How Open Idea Works: Start with your idea. Our platform offers three integrated components to turn it into reality:

- 1. Research:** Access millions of research papers, datasets, and open-source code in one unified platform. Our AI helps you discover existing solutions instead of starting from zero.
- 2. Build:** Use our AI-powered no-code workspace to remix proven components and create production-ready prototypes. No coding skills required. No expensive developers needed.
- 3. Collaborate:** Connect with a global community of experts, researchers, and innovators who can help refine and accelerate your project.

The Result: What traditionally takes months now takes minutes. From idea to working prototype—fast.

From Idea to App: Search your idea → AI finds relevant research, code, and datasets → Remix components in our no-code workspace → Collaborate with experts → Launch your prototype. That's innovation, democratized.
